

CARMANAH
Design and Manufacturing Inc.

DISPOSABLE KNIFE SYSTEM for SmartRING Stranders

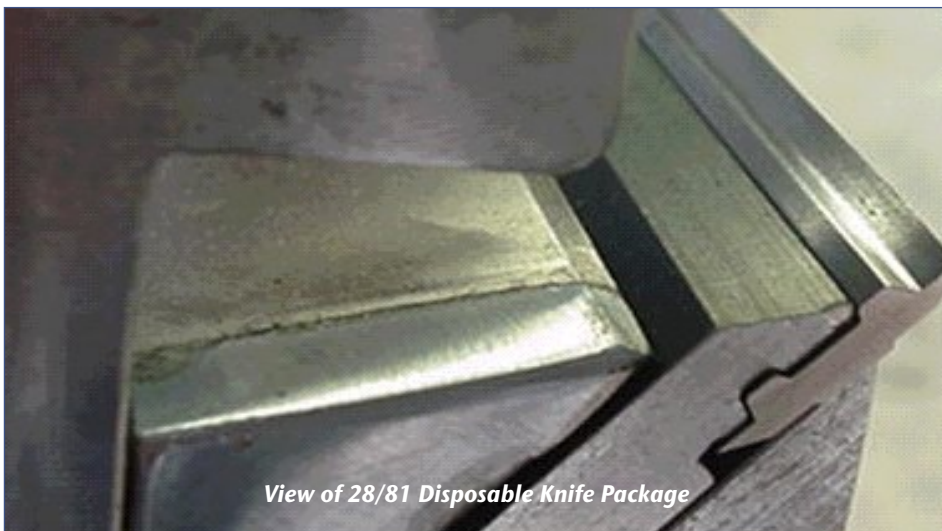

FEATURES & BENEFITS:

- **Precision ground knife** delivers improved strand properties over conventional plate knife systems
- **Reversible** knife
- **Consistent knife projection** for improved strand thickness control
- **QCAP (Quick Change Adaptor Plate)** allows quick and precise adjustment of knife projection
- **Disposable knife 'keyed' in place** eliminates knife 'knock-back' typical with conventional plate knife systems
- **Built-in counter-edge** eliminates conventional counter knife
- **Consistent counter-edge to knife tip (setback) dimension** for improved strand width
- **Numerous counter-edge angles available** allow tuning for variations in wood condition, species and mill targets
- **Lightweight components** minimize potential injury to personnel
- **Eliminates grinding** which is necessary with plate knife systems
